25th CIMAC World Congress
on Combustion Engine Technology
for

Ship Propulsion
Power Generation
Rail Traction

FIRST
ANNOUNCEMENT

May, 21-24, 2007 | Vienna - Austria

www.cimac.com

Congress | 07

Come to Vienna, You'll be most welcome.

The Austrian National CIMAC Committee has the pleasure of organising the **25th CIMAC World Congress on Combustion Engines** scheduled for 21 – 24 May 2007 in Vienna/Austria.

It was a special honour for us to have been awarded this Silver Jubilee event by CIMAC, an organization which has been acting for more than 50 years as a lively and attractive forum for engine and turbine builders and users. Today, CIMAC is the most important platform for the dialogue between the engine industry's technical experts and its customers.

The Congress is devoted to the presentation of papers in the fields of marine, power generation and locomotive engine engineering covering state-of-the-art technologies as well as the application of such engines. Moreover, the event provides the unique opportunity to meet colleagues and customers from the industry around the world.

Vienna promises to stand out as one of the most successful CIMAC conferences. Never before have so many papers been submitted for selection and an informative and high-quality meeting is guaranteed. An exhibition, covering an area of 700 m², will complement the technical sessions.

Social events enabling you and your accompanying partner to experience Austrian culture and gain memorable impressions of Vienna will round off your stay in this beautiful city.

There are many reasons to come to Vienna. We look forward to seeing you at the Vienna Hofburg.

Karl M. Wojcik

President of the 25th CIMAC World Congress

Congress 07

The City

Vienna, the former capital of a multi-cultural empire in the heart of Europe, has become an international meeting point, a culture cross-road and a gateway between Eastern and Western Europe. Vienna has a long tradition of hosting international events: The Vienna Congress was held in 1814/15, when the new European Order after the victory over Napoleon I was established.

Vienna also has important characteristics needed to qualify as one of the best congress-cities. The city offers a wide range of cultural highlights (theatres, cabarets, historical and modern museums); musical entertainment (the Vienna Boys Choir, the Viennese Philharmonic Orchestra, the Vienna Opera Ball); typical Viennese specialities (Vienna coffee houses, Sacher Torte, Mozartkugeln) as well as breathtaking architecture (Romanticist monuments, Baroque palaces and Art Nouveau buildings).

Conference Venue

The Hofburg Congress Centre occupies a unique position among the congress centers of the world. The state rooms of the Imperial Palace, the former residence of the Habsburgs, have maintained their original character despite being fitted out with the latest technical equipment. This impressive conference venue combines tradition with the requirements of a modern congress.

Registration & Hotel Accommodation

Detailed information about the registration and hotel accommodation will be sent to you with the Preliminary Programme in mid September. You will then have the possibility to either register online at www.cimac.com or by sending us the completed registration form. Together with the registration you will also be able to book your preferred hotel, social programme and excursions. The registration will start in mid September.

Social Programme

We have organised an exciting and varied Social Programme for you, which will consist of an Opening Ceremony, a Welcome Reception, a Gala Dinner and the traditional ABB Evening. In order to present you an entertaining impression of Vienna we have selected traditional venues and themes. A varied choice of optional excursions and activities for accompanying persons will also be on offer.

Congress 07

PROGRAMME

PROGRAMME				
Time	Monday, 21st May 2007			
08:00	Registration at Hofburg Congress Center			
10:00 – 12:00	Opening Ceremony at Hofburg Congress Center			
	Room 1	Room 2	Room 3	Room 4
13:30 – 15:00	(1-1) Two-stroke slow speed marine engines	(3-1) Diesel engines – Emission reduction methods 1	(2-1) Diesel engines – Combustion & performance	(10) Gas turbines – Product development & Fundamental engineering
15:30 – 17:00	(1-2) Four-stroke medium speed engines 1	(3-2) Diesel engines – Emission reduction methods 2	(2-2) Gas engines – Combustion & performance	(9-1) Turbochargers – Emission reduction & consequences for charging systems
18:30	Welcome Reception			
Time	Tuesday, 22nd May 2007			
08:30 – 10:00	(1-3) Four-stroke medium speed engines 2	(3-3) Diesel engines – Calculation models & measurements	(2-3) Piston engines – Injection & combustion	(11) Gas turbines – Environment, fuel & combustion
10:30 – 12:00	(1-4) High speed diesel engines	(3-4) Diesel engines – Fuels	(2-4) Piston engines – Structural mechanics	(9-2) Turbochargers – Applications & field experiences
13:30 – 15:00	(7-1) Gas engines Product development	(3-5) Diesel engines – Combustion	(2-5) Two stroke engines – Fundamental engineering	(9-3) Turbochargers – Compressor design
15:30 – 17:00	(7-2) Gas engine developments	(3-6) Diesel engines – Particulates	(2-6) Piston engines – Dynamics & vibration	(9-4) Turbochargers – Product development & future trends
19:00	ABB Evening			
Time	Wednesday, 23rd May 2007			
08:30 – 10:00	(13-1) User aspects marine – Predictive maintenance	(3-7) Diesel engines – Aftertreatment	(2-7) Diesel engines – Fundamentals & materials	(6-1) Electronic control systems & monitoring
10:30 – 12:00	(13-2) User aspects marine – Field experiences	(7-3) Gas engine technology	(12) Integrated systems – Piston engines & turbines	(5-2) Components – Crankshaft & bearings
13:30 – 15:00	(13-3) User aspects marine – Fuels & oils	(8) Gas engines – Component technology	(4) Tribology – Diesel engines	(5-3) Components – Injection
15:30 – 17:00	Panel discussion: Mean time between overhauls (MTBO)	Panel discussion: Alternative fuels & gas quality – the main parameters on emissions & reliability		
Time	Thursday, 24th May 2007			
08:30 – 10:00	(14-1) User aspects land based applications – Power generation	(5-4) Components – Shaft alignment	(5-5) Components – Monitoring	(6-2) Electronic control systems – Low speed engines
10:30 – 12:00	(14-2) User aspects land based applications – Emissions & lubricants	(5-6) Components – Noise & vibration	(5-1) Components – Design	(6-3) Electronic control systems – Medium & high speed engines
13:30 – 14:30	Special Collin Trust Lecture: Energy situation in the future			
14:30 – 16:00	Panel discussion: 25 CIMAC Congresses – driving source for future engine developments			
18:30	Gala Dinner Party			

Congress 07

Exhibition

The 25th CIMAC World Congress on Combustion Engines will be accompanied by an exhibition, which offers companies and institutions an excellent opportunity to present their products and technologies.

Some Useful Information:

Basic grid exhibition stand	3 x 3 m (9 sqm)
Price per sqm	€ 430,- (excl. VAT 20%)
Stand Height	max 2,5 m

Exhibition Opening Times:

Monday 21 st May	12:00 – 18:00
Tuesday 22 nd May	08:30 – 18:00
Wednesday 23 rd May	08:30 – 18:00
Thursday 24 th May	08:30 – 14:00

If you are interested in exhibiting and require more information about the exhibition, please contact:

AIMS International Congress Services
 Mr. Toni Kozul ♦ Mariannengasse 3, 1090 Vienna/Austria
 Phone: ++43/ 1 402 77 55 – 12 ♦ Fax: ++43/ 1 402 77 31
 E-mail: toni.kozul@aims-international.com

Post Congress Tours

A variety of technical visits will be offered to all participants and accompanying persons on 25th May, just after the end of the Congress.

Some Useful Information

Congress Location: Hofburg Congress Center ♦ Heldenplatz, 1014 Vienna

Participation Fee (excl. VAT 20 %):

CIMAC members.....	1.300 €
Non-members.....	1.400 €
Speakers.....	850 €
Students.....	600 €
One day tickets.....	500 €
Accompanying persons.....	300 €

Congress Language: English
